PROFILE

Multilingual industrial engineer with 8 years of web and brand development experience. Self-driven and reliable. Capable of leading and working in team. Passion for transforming complex systems into simple tools.

EDUCATION

2009 - 2013	BS in Industrial Engineering, Anahuac University
2011	"Lean Enterprise Certification" (156 hours: lean service 64 hours & lean manufacturing 92 hours), in partnership with Volkswagen Institute & Honeywell International & Anahuac University
2014 - present	Informal development courses (YouTube, blogs, etc.)
2022	JavaScript, Udemy (Fernando Herrera) – 17.5 hours (video)
2022	React, Udemy (Fernando Herrera) - 54 hours (video)

POFESSIONAL DEVELOPMENT

2012 - present	Founder partner and COO in AFRUMEX/Goyito, a small business that commercializes fresh produce and manufactures fruit-based candy
2012	Trainee at Stanley Black & Decker Puebla. Worked in the implementation of a KANBAN system in the wrecking-bar production line

SKILLS

Languages	Spanish (native), English (intermediate), Portuguese (intermediate), Italian (basic)
Dev skills	Junior+ ? - JavaScript, React, Redux, NodeJS, HTML, CSS

PERSONAL INTERESTS

- Learning how things work, repairing everything, Arduino & carpentry
- Bike riding, hiking, running (marathon /*insert check mark here*/)
- Soccer, Formula 1 racing (from the couch!)
- Cooking, dog lover, traveling
- Keeping up with friends in Brazil and Italy (I've lived in Minas Gerais and Rome)

When done in company, a plus!
